

# EDOARDO COLLALTO

Born in Torino in 1975, with a High School degree in Computer Science.

He works on PLM since the beginning of his career in 1994 with Teoresi, a Turin-based consultancy firm, working on a Sherpa PDM system for Avio Aero.

In 1998 he joins TechValue and there he works mainly on PLM for automotive customers.

From 1999 to 2001 he works for PLM software vendors like SDRC (Metaphase) and MatrixOne (ENOVIA), consulting their clients. He also supports partners like ELSAG and GlobalValue.

As a freelance consultant from 2001 to 2005 he works on PLM projects for Iveco, Italgas and Fameccanica.

From 2005 to 2011 he is the PLM Program Manager of Lear Corporation, where he gets deep knowledge of Product Development processes in the Automotive industry.

He has consulted: Avio Aero, CNH, Comau, Fiamm, Iveco, Italgas, Fameccanica, Lear, Merloni Elettrodomestici, Oerlikon Graziano, Riello.

**In 2011 he founds K2innovation of which he is currently System Integration Manager.**

Father of Chiara and Valentina, he lives with his mate in the countryside near Torino.
