

MAURIZIO DALL'OLIO

Born in Bologna in 1957 with a degree in Physics from the University of Bologna, he begins his career with Olivetti in 1981 in software development.

He starts dealing with PLM at Computervision in 1989 on the products called PDM, EDM and Optegra, working on the first Italian PLM customers in the Automotive and Aerospace industries.

In 1993 he is among the three people forming the Italian branch of Sherpa (USA), a pioneer of PLM systems, where he deals with presales, return on investment studies, feasibility studies and pilot projects at customers'.

Between 1999 and 2000 he is with ITI a US consultancy firm specialized in product development process mainly in the Automotive and Aerospace & Defense verticals.

From 2000 to 2003 he works for EDS PLM Solutions (later Siemens PLM Software) as an Account Manager for the Aerospace & Defense customers.

In 2004 he opens the Italian branch of TATA Consultancy Services, Indian giant of offshore IT and Engineering services where he serves as Sales Manager until 2009. Besides Manufacturing he is active in the Telecommunications and Banking verticals.

From 2009 to 2010 he is Managing Director of Albelissa, an Italian engineering services consultancy firm.

In 2011 he founds K2innovation of which he is currently Managing Director.

He has consulted: Ansaldo, Avio, Bticino, CNH, Comau, Fiat Auto, Magneti Marelli, Oerlikon, Oto Melara, Selex ES, Wass, Whirlpool.

He lives near Turin; he is married and father of Martina.
